Usa
OCTOBER 2018

For instance, working with coalition partners, we have liberated nearly all of the territory once controlled by the self-declared Islamic State of Iraq and **al-Sham (ISIS) in Iraq and Syria.**

ISIS remains the foremost radical Islamist terrorist group and the primary transnational terrorist threat to the United States, The group's global reach remains robust, with eight official branches and more than two dozen networks regularly conducting terrorist and insurgent operations across **Africa, Asia, Europe, and the Middle East.** Despite many setbacks, ISIS maintains a sophisticated and durable media and online presence that allows it to **encourage and enable sympathizers worldwide**
